INTRODUCTION

We're a Belgian brand producing mainly vases of mainly high quality glass, we're all about modern yet timeless designs.
Founded in 2017 by FreD., who studied architecture but made career in the home decor industry distributing and manufacturing for some of the biggest brands in business.

With a passion for good design, our brand is brining affordable luxury whether by being innovative in products or disruptive in the existing supply-market. Our price/quality can't be surpassed.

Our vases are not just beautiful to look at, they were also made to last. Using the finest materials and craftsmanship, these (hand blown) vases were created with a focus on quality and durability.

Home decorators as well as florists adore our products to add a touch of elegance to their spaces.

We treat our professional clients with the highest respect and offer boutique services, we think together with you to improve your store, or to match the right product for your project, etc...

ELEMENT ACCESSORIES

FUSIO

The concept of this series is like a deconstuctivism of the cylindric shape in an atmosphere of modernism.
The very innovative designs are remarkably logic nevertheless. These vases function very well as stand alone objects,
but are also perfectly proportioned to hold a bouquet of flowers. Add a sober touch of modern design to an interior.

ELEMENT ACCESSORIES

LENOX

This series of vases and bowls breathe splendour and richness.
Eventhough they have something of the classic greek pillars, they embody also modern luxury, soberly.
Their verticality is balanced with a little bend, their robustness contrasts with the sharp edges.

the five main colors of our high quality thick glass:

Ink Blue
IB

Our deep blue remains the best-seller. Blue was 2020 color of the year.

AMBER
AM

Dark warm orange, like the natural amber stones. For us the new trend!

GRAY
GR

Warm gray that goes from light to dark, tiny touch of brown.

WHITE
WH

Purity and a no-color that matches with every color or interior.

TRANSPARENT
TR

CLEAR
CL

As natural as can be and on request of our designers, pure transparency.

ELEMENT ACCESSORIES

DAVOS

DAVOS is the city where the rich and powerful gather yearly. DAVOS seemed the perfect name for this vase because of it's elegancy yet robustness, luxury aspect yet sober design. The dark blue color also fits this name, blue like the skies above the mountains in Switzerland, deep color tones like the sapphire stone.
let's see if at the next World Economic Forum we can spot a DAVOS vase!

ELEMENT ACCESSORIES

TYLER

This series has a lot of “retro” in it, referring to the style of the 1950’s. Think pastel colored interiors, American drive-in cinemas, etc.

Straight cylinders with well proportioned wider base.

The orange color gets darker in the curves, and that’s why we called it Amber, also a typical “retro” color.

It also comes in dark gray color, yet still has some warmth to it.
